Study Consent

Study description

Instructions for administration of consent

PAGE ONE

Who are we?

Name, job title, and institutional affiliation of the main researcher.

Include information about the principal investigator (If they are not the main researcher) and the rest of the research team (if they are directly in contact with the participants e.g. study clinicians). Include information about collaborators (If there are any).

Why are we doing this study?

We want to study something called "genes". These "genes" are present in all of us and are the same in all parts of our bodies. "Genes" are sometimes also called DNA, which is the name of the material they are made from. Genes are responsible for why people in families are often more like each other, and different from other families. For example, some families are generally taller or shorter than others. This kind of information is passed from both the father and the mother to their children and on to their grandchildren, from one generation to the next. Some of these genes may prevent some people from getting certain illnesses. Other genes may be one of the reasons why some people get sick or have side effects from some medicines when others do not. We are still learning how genes might contribute to different diseases, and how they work together with our lifestyle and other factors - such as our environment or what we eat - to affect our health. We want to explore whether genes may affect (specific health phenotype under study) in (specific target population if relevant).

What do we do to decide if you are eligible to be take part?

In our study, we want to learn more about [specific disease phenotype] in [target study population] so we are approaching any person who fits this description because they are the type of people who we want in our study.

How many people will take part in the study?

There will [insert number] of participants including yourself if you agree to participate in the study.

How long will the study last?

We expect the study to last for [insert time frame], but we will notify you immediately if there are any changes that impact you directly.

What will happen if you decide to take part in the study?

We will go through the participant information with you to ensure that you understand what the study is about, what is expected of you as the participant, and also, what is expected of us as the researchers. While going through this information we will be asking you some questions and at the end, you will be asked to give signed permission to participate in our study.

Participation in our study is voluntary and you have the option not to participate. Even after you have agreed to join our study, you can still change your mind and we will destroy your sample and remove you from the study. If you choose not to participate in our study or drop out later, it will NOT affect the care you are receiving at [insert health care facility].

What are the risks?

We will make sure that your health information and sample are protected and safely stored, because there is always some small risk that the special pattern of genes from your sample could be used to work out who you are and see your health information if other people were to get hold of this information. We will be very careful in making sure all this personal information is very secure so that this could not happen.

PAGE TWO

What happens if I get hurt taking part in this study?

This study poses minimal risk of physical harm to you as a participant. However, if you get hurt as a direct result of participating in the study, you should inform the principal investigator [full names and contact number] immediately and they will assist with the next steps.

Are there any benefits to you for being in the study?

You may not get any benefit directly from this study, but we hope that the information we get about your genes and your health may benefit others who have [specific health phenotype] and many different kinds of illnesses, in the future. You do not have to take part in this study, it is your choice if you want to take part, or not. If you do not want to take part, it will NOT affect the health care you receive at [specific health facility].

Will you receive any reward (money or food vouchers) for taking part in this study?

Participation in research is voluntary and research participants do not get paid for it. However, if you use your own money to travel from home for the specific purpose of taking part in our research we can reimburse you for that. We can also provide food or food vouchers if participating in our research requires a special diet or if you miss meals while participating in our research.

What will we ask for?

We will ask you a few simple questions about your life and where you grew up. In order to better understand your health, we will ask you for permission to look at your health records that [name of organisation/department] collects when you visit government health facilities like clinics or hospitals - such as any medical tests that have been done and any medication that you have been given at any government facility. We will also ask you to provide a swab or rinse of the inside of your mouth and we will use this to prepare a sample of your genes.

Do you agree for us to collect these body fluid samples and your health information for this study we have described about how genes might affect [specific health phenotype]?

{[consent_data_collection] yesno}

☐ Yes ☐ No

We would like to know more about your general health.

Do you agree for us to use your health information that is collected by health care workers (nurses, doctors, pharmacists) during your visits to health care facilities?

{[consent_health_information] yesno}

☐ Yes ☐ No

Medical record number:

{[consent_med_record] text}

{Branching logic (show if): [consent_health_information] = '1'}

PAGE THREE

What will happen when the study is over?

Your sample will be destroyed unless you have agreed for us to use it in future studies.

Who will see the information which is collected about you during the study?

To make sure that your privacy is protected in this study, we will make sure that your information is used for this research without your name, or your date of birth, or any other identifying information attached to it. This way, no one working on this study will know who the information or the genetic sample comes from.

How will we protect your information?

All your genes together make a special pattern in all of your body that only you have, and this is why no two people are exactly alike. Because each person has their own special pattern of genes, researchers are very careful to protect the genetic samples that are collected and the information from these samples, and these samples and information will only be used in the way you have agreed to.

To make sure that your privacy is protected in this study, we will make sure that your information is used for this research without your name, or your date of birth, or any other identifying information attached to it. We will be very careful in making sure all this personal information is very secure and we will lock away any document with your name on it so that no-one can identify you from it. We will make sure all computers used for the study are kept securely and are protected by passwords.

Will your test results be shared with you?

We will not give you any individual results from the study of the samples you give us. This is because it will probably take a long time for this project to result in specific health information that is useful to patients.

If you agree for your information to be used in other studies in the future, it is possible that some new health information might be discovered in those studies. We will ask you if you would like to know any new information that might become available about your health.

Sometimes, what we find from our research might include new information about your health.

Would you like us to contact you again if we believe we have new information that may directly affect your health?

{[consent_new_info_contact] yesno}

☐ Yes ☐ No

Would you like us to contact you again if there is some kind of action or treatment that might be able to help you with the health issue?

{[consent_new_tx_contact] yesno}

☐ Yes ☐ No

Would you like us to contact you again if there is NO kind of action or treatment that might be able to help you with the health issue?

{[consent_no_tx_contact] yesno}

☐ Yes ☐ No

PAGE FOUR

Will the results of the research be shared with you?

At the end of the study, we will put our general findings from the study in some pamphlets and posters at the clinics where people have joined this study. There, you will be able to read how this study is contributing to our understanding of health and disease. When we describe the results of this study in this way, we will only show summary results or overall study results from the whole study, and there will be no information about the individual people who took part in the study.

Sometimes researchers combine the genetic information from everyone in the study and provide a summary of genetic data for the whole group.

Do you agree for us to use your information when providing combined information about the whole research group (x total individuals in this study)?

{[consent_grouped_data] yesno}

☐ Yes ☐ No

What will we do with your data and samples?

Your sample will be stored at [name of storage facility] until the study is over. The information from your sample will be very securely stored at [name of storage facility]. The [name of storage facility] will lock away any document with your name on it so that no-one can identify you from it. We will make sure all computers used for the study are kept securely and are protected by passwords.

Your samples will never be sold, and we will not make any money from this research. The scientific results that we find from this study will be free and openly available to all scientists to help understand how we can better treat [specific disease]. In the future, commercial products might be developed by companies using the information that comes out of this study. If this happens, you will not be able to share in any profits.

Will any of your blood, tissue or other samples be stored and used for research in the future?

Your samples will only be stored and used for future studies if you give us permission to use them this way. If you do not give permission for your samples to be used for future studies, they will be destroyed at the end of this study. It is your choice to give permission for future use and that choice will not affect your participation in the current study and will not affect the health care you are receiving at [insert name of health care facility].

Do you agree for us to use your genetic samples together with your health information for other studies in the future that want to study the effect of genes on [specific health phenotype]?

{[consent_genetic_use] yesno}

☐ Yes ☐ No

Do you agree for us to use your genetic samples together with your health information for other studies in the future to study the effect of genes on other health conditions or related biological processes?

{[consent_genetic_futureuse] yesno}

☐ Yes ☐ No

PAGE FIVE

Sometimes what we find from a study like this might lead to new studies being done in the future. Can other researchers contact you in the future to invite you to take part in other research studies?

{[consent_future_contact] yesno}

☐ Yes ☐ No

If yes, how would you like to be contacted?

- ☐ {1} Telephone
☐ {2} Letter
☐ {3} Visit
☐ {4} Email

{[consent_future_contacttype] radio}

{Branching logic (show if): [consent_future_contact] = '1'}

Can my samples and information be used in research outside the country?

There is an international study that is combining the results from [specify disease] studies like ours that are taking place around the world. The information from samples donated from everyone around the world will be made available to researchers in a large data storage resource in Europe called the European Genome Archive (EGA) and will be provided to other researchers who want to do more studies using the combined genetic and health information.

We will ask you if you would like your sample and health details to be included in this international study - you do not have to agree to join the international study, it is your choice.

Do you agree for us to share your DNA sample for genetic analysis together with your health information for International studies being done to better understand [specific disease]? Your genetic data and health data may be shared with other international researchers for other studies in the future

{[consent_international] yesno}

☐ Yes ☐ No

Can my samples be used in studies about population origins and ancestry?

There are researchers who are interested in studying genes to find out more about the origins and ancestry of different populations. Our genes contain information that can be used to work out where our family and our ancestors come from - our origins.

Sometimes the information from genetic studies about our ancestry may be different to what we already believe about where our family came from, or who our ancestors were, but this information can also help us understand more about human history and how people migrated around the world in the past.

We will ask you if you would like your DNA sample to be included in studies about population origins and ancestry - you do not have to agree for your sample to be used in this kind of study, it is your choice.

Do you agree for us to share your DNA sample for genetic analysis in other research studies about population origins and ancestry?

{[consent_popn_ancestry] yesno}

☐ Yes ☐ No

What to do if you have questions or change your mind about being in the study?

If you have any questions, you can contact [name of institutional review board (IRB)] and speak to [full names and contact number of the relevant person at the IRB]. If you change your mind and you no longer want your information or sample to be included in this study, or you have other questions you can also contact [full names and contact number of study principal investigator] with your questions, or to have your information removed from this study and to have your sample destroyed.

PARTICIPANT AGREEMENT

Date of consent: _____
(DD-MM-YYYY)
{[consent_date] text date_dmy}

Study ID Number: _____
{[consent_study_id] text}

Participant full name: _____
(Full name as on Identification Document)
{[consent_fullname] text}

Participant confirmation:

Collection date of anthropometrics measures:

{[anthro_collectdate] text date_dmy}

(DD-MM-YYYY)

HEAD CIRCUMFERENCE

Head circumference measurement #1:

{[head_circ_1] text}

{Branching logic (show if): [agecalc]< 12}

(Please provide head measurement in centimetres.)

Head circumference measurement #2:

{[head_circ_2] text}

{Branching logic (show if): [agecalc]< 12}

(Please provide head measurement in centimetres.)

Head circumference measurement #3:

{[head_circ_3] text}

{Branching logic (show if): [agecalc]< 12}

(Please provide head measurement in centimetres.)

Calculated average head circumference (cm):

{[head_circ_avg] calc}

{Branching logic (show if): [agecalc]< 12}

(This field is automatically calculated.)

HEIGHT

Height measurement #1:

{[height_1] text integer}

(Provide measurement in centimetres.)

Height measurement #2:

{[height_2] text integer}

(Provide measurement in centimetres.)

Height measurement #3:

{[height_3] text integer}

(Provide measurement in centimetres.)

Calculated average height (cm):

{[height_avg] calc}

(This field is automatically calculated.)

Approximate height reported by participant:

(Only if measuring height is not possible)

{[height_self] text integer}

(Provide measurement in centimetres.)

WEIGHT

Weight measurement #1:

{[weight_1] text float}

(Provide weight measurement in kilograms.)

Weight measurement #2:

{[weight_2] text float}

(Provide weight measurement in kilograms.)

Weight measurement #3:

{[weight_3] text float}

(Provide weight measurement in kilograms.)

Calculated average weight (kg):

{[weight_avg] calc}

(This field is automatically calculated.)

Is the participant wearing a cast or medical prosthesis?

{[medpros] radio}

☐ {1} Yes☐ {0} No

Location of cast or medical prosthesis:

{[proslocation] text}

{Branching logic (show if): [medpros]=1}

Is the participant wearing street clothes during the weight measurements?

{[weightclothed] radio}

☐ {1} Yes☐ {0} No

Approximate weight reported by the participant:

(Only if measuring weight is not possible)

{[weight_self] text float}

(Provide weight measurement in kilograms.)

MID-UPPER ARM CIRCUMFERENCE

Mid-upper arm circumference measurement #1:

{[arm_circ_1] text integer}

(Provide mid-upper arm measurement in centimetres.)

Mid-upper arm circumference measurement #2:

{[arm_circ_2] text integer}

(Provide mid-upper arm measurement in centimetres.)

Mid-upper arm circumference measurement #3:

{[arm_circ_3] text integer}

(Provide mid-upper arm measurement in centimetres.)

Calculated average mid-upper arm circumference (cm):

{[arm_circ_avg] calc}

(This field is automatically calculated.)

HIP CIRCUMFERENCE

Hip circumference measurement #1:

{[hip_circ_1] text integer}

(Provide hip circumference measurement in centimetres.)

Hip circumference measurement #2:

{[hip_circ_2] text integer}

(Provide hip circumference measurement in centimetres.)

Hip circumference measurement #3:

{[hip_circ_3] text integer}

(Provide hip circumference measurement in centimetres.)

Calculated average hip circumference (cm):

{[hip_circ_avg] calc}

(This field is automatically calculated.)

WAIST CIRCUMFERENCE

Waist circumference measurement #1:

{[waist_circ_1] text}

(Please provide waist measurement in centimetres.)

Waist circumference measurement #2:

{[waist_circ_2] text}

(Please provide waist measurement in centimetres.)

Waist circumference measurement #3:

{[waist_circ_3] text}

(Please provide waist measurement in centimetres.)

Calculated average waist circumference (cm):

{[waist_circ_avg] calc}

(This field is automatically calculated.)

Smoking Status Core

Collection date of smoking status information:

{[smoke_collectdate] text date_dmy}

{Branching logic (show if): [agecalc]>=12}

(DD-MM-YYYY)

SMOKING STATUS

Has the participant smoked at least 100 tobacco cigarettes in his/her entire life?

{[smoked100] yesno}

{Branching logic (show if): [agecalc]>18}

☐ Yes

☐ No

Has the participant used at least 1 tobacco cigarette in his/her entire life (including cigarette, e-cigarette, vape, cigar etc.)?

{[smoked1] yesno}

{Branching logic (show if): [agecalc]< 19 and [agecalc]>=12}

☐ Yes

☐ No

How old was the participant when he/she first started smoking tobacco cigarettes?

{[smoking_onset] text integer}

{Branching logic (show if): [smoked100]= 1 or [smoked1] = 1}

(Provide age in years.)

What type of smoker would you currently say you are:

{[smoking_status] radio}

{Branching logic (show if): [smoked100]= 1 or [smoked1] = 1}

☐ {1} An EVERY day smoker

☐ {2} A FAIRLY REGULAR (some days) smoker

☐ {3} A FORMER smoker

☐ {-992} Don't Know

☐ {-995} Refused

Has the participant EVER smoked tobacco cigarettes EVERY DAY for at least 6 months?

{[smoking_daily6m] yesno}

{Branching logic (show if): [smoked100]= 1 or [smoked1] = 1}

☐ Yes

☐ No

On the days that you smoke, on average, how many tobacco cigarettes does the participant smoke?

OR

If you are a former smoker, on the days that you smoked, on average, how many tobacco cigarettes did you smoke?

{[smokes_per_day] text integer}

{Branching logic (show if): [smoked100]= 1 or [smoked1] = 1}

(Provide average number of cigarettes per day)

Over the past 30 days, on how many days did you smoke?

OR

If you are a former smoker, on average, on how many days did you smoke in a month?

{[smoke_days_1m] text integer}

{Branching logic (show if): [smoked100]= 1 or [smoked1] = 1}

(Every day smokers or former every day smokers should complete with '30'.)

(FOR Former Smokers): About how long has it been since you COMPLETELY quit smoking tobacco cigarettes?

{[quitsmoking] text integer}

{Branching logic (show if): [smoking_status] = 3}

Length of time since quitting measured in:

{[quitsmokingunits] radio}

{Branching logic (show if): [smoking_status] = 3}

☐ {1} Years

☐ {2} Months

☐ {3} Weeks

☐ {4} Days

TOBACCO (NON-CIGARETTE) - PRODUCT USE

In his/her lifetime, has the participant

{1} Yes

{0} No

Smoked at least 50 cigars?

{[cigars] radio}

{Branching logic (show if):

[agecalc]>18}

Smoked a pipe at least 50 times?

{[pipe] radio}

{Branching logic (show if):

[agecalc]>18}

Used a cigarette or vape at least 50 times?

{[vape] radio}

{Branching logic (show if):

[agecalc]>18}

Used snuff, (such as Skoal, Skoal Bandit or Copenhagen) at least 20 times?

{[snuff] radio}

{Branching logic (show if):

[agecalc]>18}

Used chewing tobacco (such as Redman, Levi Garrett or Beechnut) at least 20 times?

{[chewtobac] radio}

{Branching logic (show if):

[agecalc]>18}

Alcohol Consumption Core

Collection date for alcohol use information:
 {[alcohol_collectdate] text date_dmy}

(DD-MM-YYYY)

ALCOHOL CONSUMPTION

In his/her entire life, has the participant had at least 1 drink of any kind of alcohol?
 (not counting small tastes or sips)
 {[alcohol_any] yesno}
 {Branching logic (show if): [agecalc]>18}

- ☐ Yes
☐ No

About how old was the participant when he/she first started drinking alcohol?
 (not counting small tastes or sips)
 {[alcohol_age] text integer}
 {Branching logic (show if): [agecalc]>=12 and [alcohol_any] = '1'}

(Provide age in years.)

During the past 30 days, on how many days did the participant drink one or more drinks of an alcoholic beverage?
 {[alcohol_30days] text integer}
 {Branching logic (show if): [agecalc]>=12 and [alcohol_any] = '1'}

(Enter "00" if the participant did not drink in the past 30 days.)

On the days that the participant drank during the past 30 days, how many drinks did he/she usually have each day?

(Enter "00" if the participant did not drink in the past 30 days.)

(Count as a drink a can or bottle of beer; a wine cooler or a glass of wine, champagne, or sherry; a shot of liquor or a mixed drink or cocktail.)
 {[alcohol_numdrinks] text integer}
 {Branching logic (show if): [agecalc]>=12 and [alcohol_any] = '1' and [alcohol_30days]"00"}

What was the LARGEST number of drinks that he/she ever drank in a single day?
 {[alcohol_mostdrinks] text integer}
 {Branching logic (show if): [agecalc]>=12 and [alcohol_any] = '1'}

What is the participant's preferred alcoholic beverage?

{[alcohol_prefbev] radio}
 {Branching logic (show if): [agecalc]>18}

- ☐ {1} Beer
☐ {2} Brandy
☐ {3} Cider
☐ {4} Gin
☐ {5} Rum
☐ {6} Tequila
☐ {7} Vodka
☐ {8} Whiskey
☐ {9} Wine
☐ {777} Other

(If Other) Specify preferred alcoholic beverage:

{[alcohol_prefbevother] text}

{Branching logic (show if): [agecalc]>18 and
[alcohol_prefbev]='777'}

Diabetes History Core

Collection date for diabetes information:
 {[diabetes_collectdate] text date_dmy}

(DD-MM-YYYY)

DIABETES HISTORY

Has a doctor or healthcare worker ever told the participant that he/she has diabetes (sugar in blood)?

☐ Yes
☐ No

{[diabetes] yesno}

(FOR Women, If Yes): Did the doctor diagnose the participant with gestational diabetes (diabetes occurring ONLY during pregnancy)?

☐ Yes
☐ No

{[gest_diabetes] yesno}

{Branching logic (show if): [sex] = '2' and [diabetes] = '1'}

(If Yes) Did the doctor diagnose the participant with type 1 diabetes?

☐ Yes
☐ No

{[type1_diabetes] yesno}

{Branching logic (show if): [diabetes] = '1'}

(If Yes) Did the doctor diagnose the participant with type 2 diabetes?

☐ Yes
☐ No

{[type2_diabetes] yesno}

{Branching logic (show if): [diabetes] = '1'}

(If Yes) Is the participant currently taking medication for diabetes?

☐ Yes
☐ No

{[diabetes_meds] yesno}

{Branching logic (show if): [diabetes] = '1'}

(If Yes) Is the participant taking insulin?

☐ Yes
☐ No

{[insulin] yesno}

{Branching logic (show if): [diabetes] = '1'}

At what age was the participant's diabetes first treated?

{[diab_tx_age] text integer}

(Provide age in years.)

{Branching logic (show if): [diabetes] = '1'}

Was insulin the participant's first diabetes medicine?

☐ Yes
☐ No

{[insulin_first] yesno}

{Branching logic (show if): [diabetes] = '1'}

Has anyone in the participant's family been diagnosed with diabetes (any type)?

☐ Yes
☐ No

{[diabetes_fam] yesno}

Asthma Core

Collection date for asthma information:

{[asthma_collectdate] text date_dmy}

(DD-MM-YYYY)

ASTHMA

Has a clinician or a doctor diagnosed the participant as an asthmatic?
{[asthmatic] yesno}

☐ Yes
☐ No

(If Yes) Is the participant on any chronic medication for management / treatment of asthma?
{[asthma_tx] yesno}
{Branching logic (show if): [asthmatic]='1'}

☐ Yes
☐ No

(If No) Does the participant experience any of the following signs and symptoms:
{Branching logic (show if): [asthmatic]='0'}

Frequent coughing spells during play, at night or while laughing or crying?
{[coughspells] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

A chronic cough in the past 3 months or more?
{[chroniccough] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Appear listless / unusually low in energy after physical play?
{[listless] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Rapid breathing sessions from time to time?
{[rapidbreath] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Complaining of a tight chest or sore chest?
{[tightchest] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Complain of difficulty breathing OR (if infant) working harder to breathe (nostrils flaring, skin is sucking in around and between ribs or above the sternum, or exaggerated belly movement)?
{[diffbreathe] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Making a whistling sound when breathing in or out?
{[whistlebreath] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Difficulty eating OR (if infant) difficult sucking?
{[difficultfeeding] yesno}
{Branching logic (show if): [asthmatic]='0'}

☐ Yes
☐ No

Has the participant ever required emergency medical
care or hospitalisation for difficulty breathing?
{[emerdiffbreath] yesno}

☐ Yes
☐ No

Dyslipidemia Core

Collection date for dyslipidemia information:
 {[dyslip_collectdate] text date_dmy}

 (DD-MM-YYYY)

DYSLIPIDEMIA

Has a doctor or healthcare worker ever told the participant that he/she has dyslipidemia?
 {[dyslipidemia] yesno}

- ☐ Yes
☐ No

(If Yes) At what age was the participant first told this?

{[dyslip_age] text integer}

{Branching logic (show if): [dyslipidemia] = '1'}

 (Provide age in years.)

Was it confirmed with a laboratory test?

{[dyslip_labtest] yesno}

{Branching logic (show if): [dyslipidemia] = '1'}

- ☐ Yes
☐ No

Has the participant ever taken medication for dyslipidemia?

{[dyslip_meds] radio}

{Branching logic (show if): [dyslipidemia] = '1'}

- ☐ {1} Yes now
☐ {2} Yes not now
☐ {0} No

(If Yes) At what age did the participant start taking medication for dyslipidemia?

{[dyslip_medage] text integer}

{Branching logic (show if): [dyslipidemia] = '1' and
 [dyslip_meds] = '1'}

 (Provide age in years.)

Kidney Disease Core

Collection date for kidney information:
 {[kidney_collectdate] text date_dmy}

(DD-MM-YYYY)

KIDNEY DISEASE HISTORY

Has a doctor or healthcare worker ever told the participant that he/she had kidney failure?
 {[kidneyfail] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

How old was the participant when this was first noted?

{[kidneyfail_age] text integer}
 {Branching logic (show if): [kidneyfail] = '1'}

(Provide age in years.)

(If Yes) Are one or both kidneys working well now?
 {[kidneyswork] radio}
 {Branching logic (show if): [kidneyfail] = '1'}

- ☐ {1} Yes, both kidneys working well
☐ {2} Yes, one kidney working well
☐ {0} No, neither kidneys working well
☐ {-992} Don't know

Has the participant previously been on renal dialysis?
 {[renal dialysis_past] radio}
 {Branching logic (show if): [kidneyfail] = '1'}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

Has the participant ever had a kidney transplant?
 {[kidneytransplant] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

Has anyone in the participant's family either had kidney disease or died from it?
 {[kidneyfamhist] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

(If Yes) Is the type of kidney disease known?
 {[kidneyfamtype] yesno}
 {Branching logic (show if): [kidneyfamhist] = '1'}

- ☐ Yes
☐ No

(If Yes) Specify kidney disease:
 {[kidneyfamspec] text}
 {Branching logic (show if): [kidneyfamhist] = '1'}

Has a doctor ever told the participant that his/her kidneys have compromised function?
 {[kidneycomp] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

Has a doctor or healthcare worker told the participant that he/she has a kidney disease?
 {[kidneydisease] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know

Stroke History Core

Collection date for stroke information:
 {[strokehist_collectdate] text date_dmy}

(DD-MM-YYYY)

STROKE HISTORY

Was the participant ever told by a doctor or healthcare worker he/she had a stroke?
 {[stroke] yesno}

- ☐ Yes
☐ No

Was the participant ever told by a doctor or healthcare worker he/she had a TIA, ministroke, or transient ischemic attack?
 {[tia] yesno}

- ☐ Yes
☐ No

If yes, how long did the weakness last?
 {[tia_lasted] radio}
 {Branching logic (show if): [tia]='1'}

- ☐ {1} A few minutes
☐ {2} Less than 15 minutes
☐ {3} Less than an hour
☐ {4} A few hours
☐ {5} More than a day

Has the participant ever had a sudden painless weakness on one side of his/her body?
 {[weak_oneside] yesno}

- ☐ Yes
☐ No

Has the participant ever had a sudden numbness or a dead feeling on one side of his/her body?
 {[numb_oneside] yesno}

- ☐ Yes
☐ No

Has the participant ever had a sudden painless loss of vision in one or both eyes?
 {[lost_vision] yesno}

- ☐ Yes
☐ No

Has the participant ever suddenly lost one half of his/her vision?
 {[half_vision] yesno}

- ☐ Yes
☐ No

Has the participant ever suddenly lost the ability to understand what people are saying?
 {[lost_understand] yesno}

- ☐ Yes
☐ No

Has the participant ever suddenly lost the ability to express himself/herself verbally or in writing?
 {[lost_verbal] yesno}

- ☐ Yes
☐ No

{Branching logic (show if): [agecalc]>18}

ARRYTHMIA

Has a doctor or healthcare worker ever told the participant they have a heart rhythm problem called atrial fibrillation?

☐ Yes

☐ No

{[atrialfib] yesno}

{Branching logic (show if): [agecalc]>18}

(If Yes) Provide date of diagnosis:

{[atrialfib_date] text date_dmy}

{Branching logic (show if): [atrialfib] = '1' and [agecalc]>18}

(DD-MM-YYYY)

Did the participant go to a hospital/clinic or see a doctor regarding the matter?

☐ Yes

☐ No

{[atrialfib_hosp] yesno}

{Branching logic (show if): [atrialfib] = '1' and [agecalc]>18}

Has the participant had a permanent pacemaker inserted?

☐ Yes

☐ No

{[pacemaker] yesno}

{Branching logic (show if): [agecalc]>18}

(If Yes) What year was the participant's pacemaker inserted?

{[pacemaker_yr] text integer}

(YYYY)

{Branching logic (show if): [pacemaker] = '1' and [agecalc]>18}

Is the participant taking any of the cardiovascular medications below:

	{1} Yes now	{2} Yes not now	{0} No
Anticoagulants (e.g. Coumadin; Warfarin; etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
{[anticoagul] radio}			
{Branching logic (show if): [agecalc]>18}			
Antiarrhythmics (e.g. Quinidine; Procainamide; Norpace; Disopyramide; etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
{[antiarrhthy] radio}			
{Branching logic (show if): [agecalc]>18}			

RHEUMATIC FEVER/RHEUMATIC HEART DISEASE

Has a doctor or healthcare worker ever told the participant they have rheumatic fever (inflammatory rheumatism)?

☐ Yes
☐ No

{[rheumfever] yesno}

{Branching logic (show if): [agecalc]>18}

(If Yes) Has the participant had it in the past 12 months?

☐ Yes
☐ No

{[rheumpastyr] yesno}

{Branching logic (show if): [rheumfever] = '1' and [agecalc]>18}

Is the participant taking any medication for it?

☐ Yes
☐ No

{[rheummeds] yesno}

{Branching logic (show if): [rheumfever] = '1' and [agecalc]>18}

(If Yes) Specify the medication being used:

{[rheumspecifics] text}

{Branching logic (show if): [rheummeds] = '1' and [agecalc]>18}

Cardiovascular Disease - Core Instrument Version 2.0 Released September 2022

Infectious Diseases Core

Collection date for core infectious disease information:

{[infectdiscore_collectdate] text date_dmy}

(DD-MM-YYYY)

SELF-REPORTED INFECTIOUS DISEASE HISTORY

Has a doctor or healthworker ever told the participant that they have tuberculosis (TB)?
{[tb] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with TB?
{[tb_age] text integer}
{Branching logic (show if): [tb] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have malaria?
{[malaria] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with malaria?
{[malaria_age] text integer}
{Branching logic (show if): [malaria] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have sleeping sickness?
{[sleepsick] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with sleeping sickness?
{[sleepsick_age] text integer}
{Branching logic (show if): [sleepsick] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have hepatitis A?
{[hep_a] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with hepatitis A?
{[hep_a_age] text integer}
{Branching logic (show if): [hep_a] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have hepatitis B?
{[hep_b] radio}

- ☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with hepatitis B?
{[hep_b_age] text integer}
{Branching logic (show if): [hep_b] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have hepatitis C?
 {[hep_c] radio}

☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with hepatitis C?
 {[hep_c_age] text integer}
 {Branching logic (show if): [hep_c] = '1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have measles?
 {[measles] radio}

☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with measles?
 {[measles_age] text integer}
 {Branching logic (show if): [measles]='1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have chickenpox?
 {[chickpox] radio}

☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with chickenpox?
 {[chickpox_age] text integer}
 {Branching logic (show if): [chickpox]='1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have meningitis?
 {[meningitis] radio}

☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when diagnosed with meningitis?
 {[meningitis_age] text integer}
 {Branching logic (show if): [meningitis]='1'}

(Provide age in years.)

Has a doctor or healthworker ever told the participant that they have COVID-19?
 {[covid19] radio}

☐ {1} Yes
☐ {0} No
☐ {-992} Don't know
☐ {-995} Refused

How old was the participant when first diagnosed with COVID-19?
 {[covid19_age] text integer}
 {Branching logic (show if): [meningitis]='1'}

(Provide age in years.)

Collection date of stroke characterisation information:

{[stroke_collectdate] text date_dmy}

(DD-MM-YYYY)

STROKE CHARACTERISATION

Is the participant currently a stroke patient?

{[stroke_patient] yesno}

{Branching logic (show if): [stroke]='1'}

☐ Yes

☐ No

(If Yes) Which side of the participant's body is affected?

{[body_side] radio}

{Branching logic (show if): [stroke_patient]='1'}

☐ {1} Right

☐ {2} Left

☐ {3} Both

(If Yes) What was the participant's disability status after the most recent stroke?

{[disability_status] radio}

{Branching logic (show if): [stroke_patient]='1'}

☐ {1} No disability

☐ {2} No significant disability

☐ {3} Slight disability

☐ {4} Moderate disability

☐ {5} Moderately severe disability

☐ {6} Severe disability

How was the stroke verified?

{[stroke_verification] checkbox}

{Branching logic (show if): [stroke_patient]='1'}

☐ {1} CT

☐ {2} MRI

☐ {3} Angiography

☐ {4} Not verified

When was the first scan taken after onset of stroke symptoms:

{[first_scan] radio}

{Branching logic (show if): [stroke_patient]='1' and [stroke_verification(4)]='1'}

☐ {1} within 24hrs

☐ {2} 24 - 48hrs

☐ {3} 48 - 72hrs

☐ {4} 72hrs - 1wk

☐ {5} 1wk - 2wks

☐ {6} after 2wks

Was the most recent stroke episode a transient ischemic attack?

{[recent_tia] radio}

{Branching logic (show if): [stroke_patient]='1'}

☐ {1} Yes

☐ {0} No

☐ {2} Not Assessed

Facial weakness detected/observed:

{[facial_weakness] radio}

{Branching logic (show if): [stroke_patient]='1'}

☐ {1} Yes

☐ {0} No

☐ {2} Not Assessed

Stroke Type:

{[stroke_type] radio}

{Branching logic (show if): [recent_tia]='0' or [recent_tia]='2'}

☐ {1} Ischemic

☐ {2} Hemorrhagic

☐ {3} Ischemic with hemorrhagic transformation

☐ {4} Both discrete ischemic and hemorrhagic transformation

Location of Lesion:

{[location_of_lesion] text}

{Branching logic (show if): [stroke_patient]='1'}

Oxfordshire Community Stroke Project (OSCP)
 Classification:
 {[oscp_classification] radio}
 {Branching logic (show if): [stroke_patient]='1'}

- ☐ {1} Lacunar infarct (LACI)
☐ {2} Partial anterior circulation infarct (PACI)
☐ {3} Posterior circulation infarct (POCI)
☐ {4} Total anterior circulation infarct (TACI)

ASCOD Classification:
 {Branching logic (show if): [stroke_patient]='1'}

	{0} 0 - No disease	{1} 1 - Likely causal	{2} 2 - Uncertain if causal	{3} 3 - Unlikely causal	{9} 9 - Incomplete workup
Arteriolosclerosis {[ascod_arterio] radio} {Branching logic (show if): [stroke_patient]='1'}	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Small vessel disease {[ascod_smallvessel] radio} {Branching logic (show if): [stroke_patient]='1'}	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cardioembolism {[ascod_cardioemb] radio} {Branching logic (show if): [stroke_patient]='1'}	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other cause {[ascod_other_cause] radio} {Branching logic (show if): [stroke_patient]='1'}	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Dissection {[ascod_dissect] radio} {Branching logic (show if): [stroke_patient]='1'}	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Specify other cause:
 {[other_causes_specify] text}
 {Branching logic (show if): [ascod_other_cause]='1' or
 [ascod_other_cause]='2' or [ascod_other_cause]='3'}

Stroke Characterisation - Instrument Version 2.0 Released September 2022
 H3ABioNet & H3Africa Phenotype Standards

Pre-Stroke Reduction Strategies

Collection date of pre-stroke risk reduction strategies:

{[prestroke_collectdate] text date_dmy}

(DD-MM-YYYY)

PRE-STROKE RISK REDUCTION STRATEGIES

Has the participant ever employed risk reduction strategies to prevent stroke?

{[stroke_risk_reduct_used] radio}

☐ {1} Yes

☐ {0} No

(If Yes) Specify stroke risk reduction strategies employed:

{[stroke_risk_reductions] checkbox}

{Branching logic (show if):

[stroke_risk_reduct_used]='1'

☐ {1} Antiarrhythmics

☐ {2} Anticoagulant therapy

☐ {3} Antidiabetics

☐ {4} Antihypertensive drug therapy

☐ {5} Antilipids

☐ {6} Antiplatelet therapy

☐ {7} Smoking Cessation

☐ {8} Dietary changes

☐ {9} Physical Activity changes

☐ {10} Statin therapy

☐ {11} Surgical Procedure

☐ {777} Other

(If Other) Specify other stroke risk reduction strategies employed:

{[stroke_risk_reduct_other] text}

{Branching logic (show if):

[stroke_risk_reductions(777)]= '1'

Post-Stroke Risk Reduction Strategies

Collection date of post-stroke risk reduction strategies:

{[poststroke_collectdate] text date_dmy}

(DD-MM-YYYY)

POST-STROKE RISK REDUCTION STRATEGIES

Has the participant ever employed any post-stroke risk reduction strategies?

{[poststroke_reduction] yesno}

{Branching logic (show if): [stroke]='1'}

☐ Yes

☐ No

(If Yes) Specify post-stroke risk reduction strategies employed:

{[poststroke_reductions] checkbox}

{Branching logic (show if): [stroke]='1' and

[poststroke_reduction]='1'}

☐ {1} Antiarrhythmics

☐ {2} Anticoagulant therapy

☐ {3} Antidiabetics

☐ {4} Antihypertensive drug therapy

☐ {5} Antilipids

☐ {6} Antiplatelet therapy

☐ {7} Smoking Cessation

☐ {8} Dietary changes

☐ {9} Physical Activity changes

☐ {10} Statin therapy

☐ {11} Surgical Procedure

☐ {777} Other

(If Other) Specify other post-stroke risk reduction strategies employed:

{[poststroke_reductions_oth] text}

{Branching logic (show if):

[poststroke_reductions(777)]='1'}
